if it had not been for that nurse, his diagnosis would have been delayed which could have had serious consequences.

walden had been arrested previously for jumping off el capitan in yosemite national park.

your requirements will change themselves, and you'll discover that something that was only right before is currently way too salty or sugary.

i have been taking a tablespoon of honey everyday to hopefully combat my allergies.

the principle of choice or agency functions in distinctly different ways in each of those areas and therefore
