"learn to see in another's calamity the ills which you should avoid." by Publilius Syrus.

She is certified by the American Board of Psychiatry and Neurology.

Once you drink alkaline water and it enters your stomach, your body simply pours in greater amounts of acid to neutralize it.

This five-year spending plan assumes that an agreement with the government of Canada on health transfers (2 billion in 2008-9), which expires in 2014, will continue.

By the second semester of organic chemistry, students will learn over 100 chemical reactions.
